**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please retain Bridge 2 broadband.

That is critical for the economic survival of my ISP. It started out providing DSL on top of AT&T POT service, but at twice the speed available from ATT and at a lower rate that never got increased. I am looking forward to their own offering fiber to the house. At the moment, their fiber capability must utilize the ATT fiber that ATT put in to serve the elementary school two houses away, and that is relative exoensive. We need more, not less competition in the broadband business. When 5G cell service arrives, that will offer little as the usage caos will be so small.
